

## Rhino Air Mover

The rugged and tough Rhino air mover is designed to ventilate or extract clean or dirty air from confined spaces.

**Stackable:** Built with interlocking ribs, the RHINO fans can easily be stacked on top of one another for both storage and operation, giving maximum airflow from minimum floor space.

**Durable:** Polythene is resistant to the normal knocks and bangs of everyday use and has a permanent high quality exterior finish and is corrosion free.

**Features:**

- 6 blade 31cm diameter balanced fan
- 550W motor
- 3250m<sup>3</sup>/hr output
- 5 metres of ducting
- 115V or 230V
