

AirMaXX SL

The premium SCBA system from MSA has long been appreciated by the international emergency service community for its versatility, safety and comfort. Developed in close co-operation with fire service specialists and respiratory protection experts, the AirMaXX SCBA and the AutoMaXX lung demand valve represent milestones in fire fighting around the world. As an extension to the proven AirMaXX classic pneumatic system, the AirMaXX is now also available with integrated alpha-technology™. alpha™ SCBA enhancements are focused on increasing safety, efficiency and incident capability, while the alpha™ personal network features electronic personal monitoring and telemetric capabilities.

Features

- SingleLine pneumatics
- 3-length adjustable carrying plate
- S-sweep shoulder straps for maximum movement
- Swivelling hip-pad for optimum weight distribution
- Simple change of cylinders
- Ultra Elite face mask

Specialists in Safety: Breathing Apparatus
