

Full Composite BA Cylinders

We can now supply a full composite cylinder in a range of sizes and pressures. These new cylinders have an unlimited lifetime; previous carbon cylinders have a 15 year life! The full composite cylinders have a Poly Ethylene liner in which no corrosion occurs, in spite of possible humidity in compressed air. The cylinders have a burst pressure higher than 900 bar and a test pressure of 506 bar and can be filled more than 12,000 times.

Features

- Choice of Sizes
- Unlimited Life
- Retro-fitting of Valves
- Nomex Cylinder Cover
- Extremely Light
- Rubber Protective Domes
