

MSA Turbo-Flo Fresh Air BA

The Turbo-Flo fresh air breathing apparatus supplies the wearer with fresh air from outside the hazardous environment with or without assistance from an electric blower. Without a blower the user can have up to 18 metres of hose or 36 metres with blower assistance. Blowers are available for all applications in 12V, 110V or 240V versions.

Features

- Sturdy design
- Easy to carry and use
- Simple to maintain
- Good mobility, twin breathing tubes over shoulders
- Turbo-assisted breathing (with Turbo-Flo blower)
- Independent of power supply (without blower)
