

## Britannia FRS Rescue Harness

The FRS Rescue harness is manufactured from quality polyester webbing which exceeds the minimum strength requirement of European Standards. It is designed with comfort and ease of donning in mind. The two point, fall arrest harness, with additional overhead rescue attachment has 3 bar slide and rectangular link, leg and chest connections. Adjustable length shoulder straps with a 3 bar buckle to ensure the chest strap is positioned over the sternum area. The chest strap on this harness is a full chest strap going all the way around the chest to provide an exceptionally secure configuration which increases the distribution of load when using the front "D" ring

- Polyester Webbing
- Shoulder Adjustment
- Chest Strap Adjustment
- Leg Strap Adjustment
- Rear Fall Arrest Attachment Point
- EN361:2002, EN1497:1996
