

## Deco 2000

The Didsbury Deco 2000 compact hoist is a lightweight lifting system for man riding and precision handling operations. Available with two choices of cable lengths 19m or 37m incorporating a controlled multi-layering drum action.

- Compact and lightweight for easy handling.
- Controlled, multi-layering cable action minimises snagging to ensure smooth operation and long cable life.
- Manually operated in standard form or with air motor drive.
- Available in cable lengths to suit short lift or deep hole applications.
- Two speed operation.
- Speed governed automatic descent feature minimises operator effort requirement.
- Automatic dead-man's handle fail-safe braking system.
- Built to meet load handling requirements specified by health and safety and industrial markets.
- Proof loaded, tested and certified.
- Suitable for a wide variety of tasks including straight forward lifting of machinery to man riding and rescue.
- Provides an exceptionally lightweight, free standing lifting system when used with tripods.
- SWL 127 kg.
