

Globestock G-Tripod

A quality tripod which is both durable and versatile for confined space and down hole applications. Set up over the horizontal aperture the G-Tripod can be used in conjunction with the G-Saver II and or G-Winch.

Manufactured from aluminium for lightness and long term durability, the tubular legs are telescopic and adjustable to accommodate uneven surfaces and ensure easy transport and storage. Robust rubber cup feet ensure stability in a wide variety of environments. There are two anchorage points allowing the use of a secondary back-up fall arrester, or other types of lifting / safety equipment.
