

G-Winch

The G-Winch is a man riding winch with a 50 metre cable. Ideal for use in confined spaces, the G-Winch is quickly attached to a tripod to enable easy lowering and retrieval of personnel or equipment. The G-Winch has a high mechanical efficiency and a light, smooth action making personnel hoisting easy. The internal mechanism is case hardened to give a long, wear resistant life as well as toughness and durability. Cable retrieval rate of 50mm per handle revolution or 500mm per handle revolution when in rapid retrieval mode.

- Tough and durable
- Two modes of use:
 - Normal for personnel or equipment with 50mm retrieval rate per handle revolution
 - Rapid for winding cable in or out with 500mm retrieval rate per handle revolution
- Self locking action in normal mode to prevent a load falling upon release of handle
- 50 metres of 5mm diameter galvanised steel cable
- SWL 136kg – Man Riding
- SWL 200kg – Material Handling
- 1:8.9 gear ratio
- Use of a secondary fall arrest device is recommended
