

Respirex GTB Gas Tight Suit

The Respirex GTB is a reusable Type 1A "gas tight" Hazmat chemical protection suit covering both the wearer and the breathing apparatus. It comes supplied with safety gloves and either integral heavy duty safety boots or integral socks. Suitable for use with all types of self contained breathing apparatus.

Features

- Double glazed visor permitting undistorted vision that will stand chemical permeation for the substances listed in European standard EN943-2: 2002 for more than 480 minutes. The visor strength conforms to EN146:1991.
- Expanded back to accommodate self contained breathing apparatus.
- Heavy duty 122cm gas tight zipper to right hand side of suit.
- Chemically resistant 'Hazmax' safety boots with steel mid-sole.
- Neoprene gloves fitted by means of a locking cuff mechanism.
- Adjustable internal support belt enables users of varying sizes to comfortably wear the suit.
- Exhalation valves ensure the pressure within the suit does not exceed 1mbar in 1 minute.
- A pass-thru fitted to enable supplementary air to be passed (via an airline) to the second man attachment on the user's breathing apparatus.
- Every garment tested for leak-tightness according to EN464:1994.
- Taped inner and outer seams.
- Suit supplied in a rigid plastic box.
- Available in a range of materials .
