

Respirex Tychem TK

The Respirex Limited Life Type 1A gas tight chemical protective suit is manufactured from Tychem® TK. It is of one piece construction and is fully encapsulating, covering both the wearer and the breathing apparatus. The suit incorporates the latest design technology and is compatible with a wide range of breathing apparatus.

Features

- Visor manufactured from a laminate material permitting clear undistorted vision that will stand chemical permeation for the substances listed in European standard EN943-2:2002 and the American standard NFPA 1991 for more than 480 minutes. The visor strength conforms to EN146:1991.
- Heavy duty 122cm gas tight zip to the right hand side of the suit with overlapping storm flaps with a Velcro closure.
- Polymer rubber outer gloves laminated to a highly chemically resistant inner glove fitted by means of a locking cuff mechanism.
- Bat-Wing sleeve design for ease of movement in the suit.
- Adjustable internal support belt enables users of varying sizes to comfortably wear the suit.
- Exhalation valves ensure the pressure within the suit does not exceed 1mbar in 1 minute.
- The suit is supplied in a heavy duty sealed bag.

Options

- Chemically resistant 'Hazmax' safety boots can either be permanently fitted or fitted with a new detachable boot system.
- Attachment points for distress signal units, personal line pouches and torches.
