

MSA ALTAIR 4

The ALTAIR 4 is a reliable multi-gas detector that measures O₂, H₂S, CO and combustible gas. Besides being one of the most compact multi-gas detectors available, it has an extremely durable rubberized housing and is very easy to use. The ALTAIR 4 is available with the option of MotionAlert – a unique feature in the world of portable gas detection. The detector's alarm is triggered if the user remains motionless, alerting those nearby. The InstantAlert alarm allows the user to manually activate the detector's alarm system. It is a standard feature across the ALTAIR 4 range.

Features

- MotionAlert and InstantAlert alarm features for additional safety
- IP 67 and designed to pass 3m drop test
- Triple Alarm System:
 - super-bright LED's on the detector's top and bottom
