

## GfG G460

GfG's new intrinsically safe G460 is a rugged, compact instrument for simultaneous detection of up to **6** gases. Installed sensor options include infra red (NDIR) for CO<sub>2</sub> and PID for VOC measurements. The G460 offers completely automatic calibration, one button operation, top mounted display and interchangeable battery packs. A single on-off button is all it takes for normal day-to-day operation. A simple three button interface provides access to advanced setup options.
