

Tool Retention Safety System

The new and innovative TRSS allows people working at heights (over 1.0M) to work safely without the risk of injury to others. The TRSS simply fastens to a belt or a harness and clips to the work appliance (1.5kg max), with the inertia reel allowing unhindered working.

Working at height Regulations April 6th 2005

Falling Objects

39. Where it is necessary to prevent injury, you must do all that is reasonably practicable to prevent anything falling

40. If not reasonably practicable, you must ensure that no one is injured by anything falling

- **Stops Falling Tools**
- **Fits on Belts or Harnesses**
- **Fully Retractable**
- **Lightweight & Easy to Use**
