

Eyewash Solution

Where the eyes, face and/or body of a person may be exposed to injurious chemicals or particles, suitable facilities for the quick drenching or flushing of the eyes, face and/or body should be available within 10 seconds to reduce the risk of permanent injury. Be proactive and ensure you have the right equipment in the right location.

Sterile eye wash solution (0.9% Saline) - can also be used for wound irrigation or cooling burns.
