

Emergency Stretchers

Basket Stretcher

This heavy duty basket stretcher is suitable for rescues from building sites, quarries, mines or any situation where the casualty needs to be dragged, carried or lifted across rough or muddy terrain. The split basket separates for compact storage or back packing to a rescue site. Each basket is supplied complete with four patient restraints and footrest and can be fitted with a lifting bridle for vertical lifting of casualties.

Weight: 13 kg
Length: 217 cm
Length Folded: 25 cm
Minimum Length: 115 cm
Maximum Load: 272 kg

Neil Robertson Stretcher

A well proven rescue stretcher, the Neil Robertson provides comfort and security to the casualty whilst enhancing the rescue effort. Designed for use in instances where the casualty needs to be lowered or lifted to safety, this stretcher is widely used by the Navy, Mines, Factory and Emergency Rescue Services. Constructed from spliced, ramon slats with a tough, rot proof cotton exterior. Strong and supportive head restraints offer stability to the head when vertical lifting is necessary. Features cotton straps with buckle and regularly spaced eyelets which assist in holding the casualty safely in place. Support ropes manufactured from durable manila enhance rescuer confidence and offer a high degree of resistance to chafing. An optional carrying bag is available for convenient storage of the stretcher when not in use.

Weight: 8 kg
Length: 150 cm
Width Folded: 31 cm
Minimum Length: 150 cm
