

## MSA Eyewear

The MSA PERSPECTA range of safety spectacles can meet all your needs by offering fashionable designs combined with functionality. Choose from single or double lens, integrated frames, side shields for added protection, adjustable temples and nose bridges or even tinted lenses for those bright summer days. MSA PERSPECTA safety spectacles are all supplied with the MSA Tuff-Stuff hard coat for greater scratch resistance.

### Perspecta 9000

An extremely lightweight (26 grams), snug fitting model with the highest polycarbonate lens optical quality, class 1 and Impact grade F. Available in various lens colours, with anti-fog option.

**EN166 1 F**

### Perspecta 010

A Hi-Tech Style with Ultimate Protection and Comfort; The semi-frame and slim temple design creates a model that weights only 32 grams. Excellent field of vision and the highest polycarbonate lens optical quality (class 1) with impact grade F. Available in various lens colours, with ant-fog option.

**EN166 1 F**

### Perspecta FL250

Weighing only 25g the FL250 is the lightest among the single lens spectacles. Close fitting, even on small faces, makes it suitable for dusty environments. The transparent design with hard coated safety lenses has optical class 1 with an impact protection level of F also offers 99% UV absorption.

**EN166 1 F**

### Perspecta 2047W

Offering all-around protection these stylish single lens spectacles, with vented side shields, are ideal for visitors and regular wearers alike. Available with clear or smoke lenses they fit over most prescription eyewear.

**EN166 1 F**

### Perspecta GIV 2300

An ergonomic goggle design with sophisticated 11 indirect air vent ventilation system for exceptional wearer comfort provides good circulation while protecting against splash and dust. The GIV 2300 features comfortable headband with length adjustment, Panorama anti-fog lens and a flexible body that adapts perfectly to the individual contours of the face
