

Advantage 200 LS

The Advantage 200 LS is made of a clear blue thermoplastic rubber, making it lighter and softer. Because of its soft and pliable combination of rubber and plastic it provides a customized fit, eliminating unwelcome pressure points. A paint spray kit is also available.

Features

- Lighter and softer
- Unmatched fit and comfort of the MultiFlex system
- Designed with only four components
- Three available sizes
- Full range of chemical, particulate and combination filters

The Advantage 200 LS has a full line of particulate, chemical and combination cartridges approved to EN 141 and 143. Providing the best in low weight design and filter performance, the unique combination filters are approved for A2B2E1K1 classes.

See our filter range datasheet for a full list of available filters.
