

Advantage 3000

MSA's expertise in breathing protection is clear to see in their range of the full facemasks. Combining comfort with quality, a variety of useful accessories and a comprehensive range of filters ensure that the range is adaptable for use in a very broad range of working applications. The MSA range of masks is an excellent choice when working in hazardous environments.

Available in 3 sizes, the Advantage 3000 series is available for the EN148 standard thread or the MSA range of Advantage filters.

The new patented Advantage head harness guarantees a perfect facepiece-to-face fit even for men with beards. Apart from functional efficiency, MSA have also paid special attention to appearance. The narrow design is one feature, along with a large, optically corrected eye glass ensuring a clear undistorted vision.

See our Filter Range Data Sheet for a full list of available filters.
