

Filter Escape Masks

MSR 1 & MSR 2 Half Masks

The MSR 1 provides protection against hazardous gases of the types A, B, E and K. The MSR 2 also covers protection against particles (P2). Both devices are packaged in a robust carrying container with a belt clip.

- Tight fitting half mask
- Head harness with quick action roll buckles
- Low breathing resistance
- Large protection capacity
- Available with P2 particle filter

S-CAP Escape Hood

It has been proven that most victims during dramatic circumstances due to a fire do not get injured by heat or flames but from smoke and gases. S-CAP is an escape hood specially designed to protect persons endangered by smoke and gases generated by fires. The most dangerous of them is carbon monoxide.

S-CAP provides an effective protection for eyes, head and especially the respiratory tract, and thus persons can escape to safety with little risk.

- Simple and quick handling
- Safe protection of respiratory tracts, eyes and head
- Easy donning also for persons wearing spectacles
- Large field of vision
- High performance filter
- No training required
